AISHE Code:C-55461

GREEN POLICY DOCUMENT

Environmental policies are needed because environmental values are usually not considered in organizational decision making. An environmental policy helps set the tone for an organization, facility, or department regarding environmental protection and sustainability, must be clearly articulated from the top, and must permeate all the way throughout an organization, facility, or department's structure.

Objectives:

- ↓ Comply with environmental laws and regulations
- ↓ Pursue environmentally-sound projects
- ↓ Manage and reduce environmental burden.
- ↓ Promote environmental education and communication related to environmental issues

SCOPE

- ↓ The policy applies to the Environment Management Committee, and all the stakeholders of the institution.

POLICY STATEMENT

- ↓ Through implementation of this policy, the college will serve as a responsible agency by advancing environmental stewardship within programs and facilities, and in the broader community. Accordingly, the college will:
 - Continually improve our environmental performance.
 - Develop and maintain environmental management programs with objectives and
 - targets to minimize adverse environmental impacts.
 - Comply with all applicable environmental, health, and safety laws, regulations, and

- other requirements.
- Implement effective pollution prevention and waste minimization programs to reduce,
- reuse, and recycle materials.
- Ensure that energy and water are used responsibly and conserved through innovative
- practices and procedures.
- Provide all institute staff with the knowledge and tools needed to meet the goals of this
- policy and to actively participate in efforts to prevent negative environmental impacts.
- Measure progress toward our environmental goals.
